Russian Federation as a state was established 25 December 1991 and based on the Russian Soviet Federative Socialist Republic that was a part of the Soviet Union. After disintegration of the Soviet Union, Russian Federation became its legal successor. All Air Forces situated on the RSFSR territory at the reform were included in Russian Federation Air Forces. In addition, some units from former Soviet Union Air Forces by agreement with the governments of those republics. There were some pilots, who didn't want to serve in Air Forces in new countries, flew to the Russian Federation territory.

Russian Federation Air Forces, as a legal successor of the Soviet Union Air Forces reserved the right to use marking of the Soviet Union Air Forces – pentagonal star with white and red border. Belarus Air Forces continued to use the marking of former Soviet Union Air Forces on their airplanes and helicopters. During being RF as a sovereign state, there were several projects of changing marking of Russian Federation Air Forces. At the end of 2008, a bill of changing was approved and introduced to State Duma. According to project there was suggested to use pentagonal red star with sequential alternation of blue, white and red border as a marking of Russian Federation Air Forces.

State Duma approved the project, but Federation Council nixed it. Later at the president of RF D.A.Medvedev insistence Federation Council approved new marking. 4 March 2010 the law about "Marking of nationality on aircrafts of state-owned aviation of Russian Federation" came into effect. By order of Minister of Defence of RF "National Marking Regulations on State-owned Aviation of Russian Federation" were approved.

Additional marking identified the belonging of the aircraft to Air Forces of Russia: the marking "BBC России" of black color with white outlining (if the aircraft has white color it goes without white outlining) on the fin on both sides below marking on the planes and on both sides on the head of tail boom on the helicopters. The size of marking "BBC России" defines individually for each type of the aircraft.

According to "Regulations", the size of marking "BBC России" defines individually for each type of the aircraft by agreement with design office developer; meanwhile the height of letters is selected from standard line, specified by "Regulations". When stenciling the marking it allows that crosspieces can be colored or uncolored. For getting both types of black marking with white outlining you can use two different types of black elements (specified in the decal by letters "b" or "c" after digit), and plot it over similar white one (specified in the decal by letter "a" after digit). For size estimation of marking on the specific airplane or helicopter, please use photos of airplanes and helicopters of this type with marking and additional marking of Air Forces of Russia of 2010.

Also according to "Regulations", each aircraft has registration marking (registration code), for example RF-XXXXX. For Russian Federation aircrafts, these registration codes are marked on the both sides of the fin (or on the lateral surface of fuselage); for Russian Federation helicopters they are marked on the both sides of the tail boom. The registration code is marked in black color on the light surfaces and in white color on the dark surfaces.

According to "Regulations", the size of registration code defines individually for each type of the aircraft by agreement with design office developer, meanwhile the height of letters is selected from standard line, specified by "Regulations". When stenciling the registration code it allows that crosspieces can be colored or uncolored.

From a sufficient number of photos of different aircrafts and helicopters of Russia Air Forces with marking of 2010 sample a proposition is induced that the height of registration code font is selected from standard line one level lower than the height of marking "BBC России" on the same aircraft. For size estimation of registration code on the specific airplane or helicopter, please use photos of airplanes and helicopters of this type with marking and additional marking of Air Forces of Russia of 2010.

Russia of 2010.

For getting different types of registration codes on your model, you can use four types of letters composing code: white or black, with crosspieces or without them.

When additional marking and registration codes are marked on the aircrafts directly in combatant subdivisions (regiments, squadrons and airbases), there can be variants, that out of line with "Regulations"; for example; the height of letters is selected not from standard line, or registration code is black with white outlining (similar to marking "BBC России").

#### Ważne informacje:

**Prosimy o dokładne zapoznanie się z zasadami działania naszego sklepu. To bardzo ważne i pozwoli na uniknięcie nieporozumień związanych z koniecznością oczekiwania na przesyłkę. Wszystkie zamówienia realizujemy w kolejności zgłoszeń. Wybranie "przesyłka priorytetowa" jako sposobu wysyłki nie oznacza, że paczka zostanie wysłana na drugi dzień. To tylko rodzaj usługi pocztowej.**

Firma Jadar-Model jest właścicielem dwóch sklepów. Jeden z nich to sklep internetowy, drugi zaś jest prawdziwy i mieści się w Warszawie, stolicy Polski. Te same modele i akcesoria oferowane w sklepie internetowym sprzedawane są w jednocześnie w obu sklepach. Ponieważ nasza oferta jest bardzo duża nie mamy magazynu z wielką ilością tych samych przedmiotów. Może zdarzyć się, że model, który chcesz kupić został sprzedany w drugim sklepie. Wtedy zostaniesz powiadomiony emailem, że realizacja Twojego zamówienia będzie dłuższa, ponieważ musimy uzupełnić magazyn i czekamy na dostawę od producenta. Prosimy o cierpliwość i wyrozumiałość.

Nie ponosimy odpowiedzialności za różnicę w zawartości pudełka w stosunku do prezentowanego zdjęcia. Zdjęcia są zazwyczaj reklamówkami i mogą zawierać również inne części, które nie wchodzi w skład danego produktu.
