# Fiesler Fi 156 STORCH

# 132064

This set contains printed and photoetched parts. Choose appropriate shade of belt and trim on dotted line using very sharp knife. Remove the printed foil from foundation paper. Trim to required lenght according to the type of seatbelt. Flatten out and thread through photoetched parts. Glue using white glue, do not use chemical glue that eches plastic. When applying, look at photos of cockpit of individual machines. After glued and shaped, paint with matt varnish.
